**REACTION OF THE MORAL OUTCRY, OPERATION OUTCRY, THE  
JUSTICE FOUNDATION, AND MARY BROWNING TO SUPREME  
COURT LOUISIANA CASE - A LOVING WARNING OF COMING  
DESTRUCTION**

Cynthia Collins, Global Advisor for Operation Outcry states:

"Abortionists will be emboldened by this decision in their unethical standard of care of vulnerable women. With this decision from the Supreme Court there should be a sign at every abortion business, *"Women beware, lower standard of care for women seeking abortion. Enter at your own risk."*

Allan Parker, President of The Justice Foundation and lead counsel on three *Amicus Curiae* briefs supporting the Louisiana Abortion Unsafe Protection Act states:

"This is a terrible decision for America. This is a terrible decision for the thousands of women who will be further injured by the abortion industry like my clients showed they were in the *Amicus Curiae* brief of 2,624 Women Injured By Abortion, Operation Outcry ([www.operationoutcry.org](http://www.operationoutcry.org)) and The Justice Foundation." [See Brief here](#).

"It is a terrible decision for all of the people of America," says Melinda Thybault, the Founder and Collector of the 264,500 signers of The Moral Outcry Petition, ([www.themoraloutcry.com](http://www.themoraloutcry.com)) who believe that abortion is a crime against humanity. Melinda stated further: "I'm appalled that raising simple safety standards for women was denied today. Given the climate of our nation in this hour, this is clearly a deep line in the sand. God help us!"

[See Brief here](#).

"It is a terrible decision for women," says Mary J. Browning, who had an abortion after high school because she wanted to pursue her graduate education and career. She deeply regretted the abortion and was able to attend graduate school and law school while having one and two small children respectively. She did not need an abortion to participate fully in the "economic and social life of the nation." As her brief and life so eloquently demonstrates: no woman does. [See Brief here.](#)

I, Allan Parker, am a licensed attorney and a member of the U.S. Supreme Court Bar. I am ashamed for the majority that rendered this "crime against humanity" decision, as my clients argued before the Court.

As a licensed minister of the Gospel, I tremble for my country. I feel that great destruction, more than has even occurred so far, will come upon the United States as a result of this decision. God is just and His justice never sleeps. He is merciful and He has waited a long time. **But decisive destruction is coming upon the United States of America for the shedding of innocent blood.**
